Phil

Here are maps of the Delta Site from the HRS.

Thanks

Melody,

On Monday I'll talk to Brenda about your question.

Subject: Delta NPL Boundary question

Hi Bob,

The boundary that we have for the Delta NPL site was pulled from the property map (attached) in the HRS Document dated April 2014. Our boundary includes the property and pit polygons, just like the attached map.

Do you think this is OK to use as the NPL boundary for Delta in our EPA Region 6 NPL dataset?

Thank you for your help!

Melody
